

THE ROSWELL DAILY RECORD.

VOLUME 4

ROSWELL, NEW MEXICO, THURSDAY EVENING, MARCH 22, 1906.

NUMBER 18

Thur. & Fri. 500 Linen Lace or Embroidered 35 & 50c Handkerchiefs 3 for 50c—Price & Co.

TROUBLE BREWING

RADICAL ELEMENTS IN RUSSIA PREPARING FOR OUTBREAK.

SECRET MEETING

General Strike Will Probably Be Declared in April.—Authorities Instruct Governors to Take the "Necessary Precautions."

St. Petersburg, Mar. 22.—The agitation among the workmen's organization involves a bold plan on the part of the Social Democrats, the revolutionists and other radical elements to send delegates elected secretly to a meeting to be called at some place in Finland early in April at which an ultimate plan of operation will be decided upon. A division of sentiment exists among the leaders, some favoring a general strike the middle of April for the purpose of forcing the lower house of parliament to demand immediate convening of the constitutional assembly on a basis of universal suffrage, but the more audacious aim at setting up a provisional government. The authorities here perfectly realize that something big is in preparation, and Interior Minister Durnovo has sent circulars to the governors, generally instructing them to take "necessary measures" to meet the movement.

IN EXECUTIVE SESSION,

Miners and Operators Still in Contest Over Wage Scale.

Indianapolis, Ind., Mar. 22.—The joint scale committee of the joint conference of coal operators and miners of the central competitive field and the Southwest district, again went into executive session today to continue the contest over the wage scale. The situation before the doors closed on the two meetings was the same that confronted the operators and miners when the former conference adjourned on Feb. 2, following a disagreement. The two sides were apparently no nearer a settlement. It was admitted by both sides that should there be an agreement at this time the wage scale agreed upon would be in force for one year only.

TRAIN COLLISION.

Fireman Killed and a Dozen Persons Badly Injured.

Webster City, Ia., Mar. 22.—Fast passenger train Number 1 on the Illinois Central, due here at 3:05 this morning, collided with a freight one mile west of Duncombe this morning. Fireman William Cutting was killed and a dozen others badly, but not fatally, injured. A passenger coach was turned into a temporary hospital where the injured were cared for, pending their being brought to a hospital here.

A SWELL NEW STORE.

S. G. Johnson's "South Side Market" One of the Finest in the Territory.

"The South Side Market" is the name of the new meat market and grocery that is being established by S. G. Johnson at the Jerry Simpson home place on South Main street. The new store will be opened to the public Saturday, and is now ready for business, except for the installment of fresh meats and perishable groceries. The new store is a beauty, in

every respect. Its equal would be hard to find. In the first place, it is housed in an elegant, large new building of cement blocks, with cement shingle roof and cement floor that gives the place a wholesome and sanitary appearance. The fixtures are complete and selected with a view to practicability as well as beauty. The fixtures alone cost \$1,000. The stock will be complete, in both groceries and meats of all kinds. All perishable goods will be kept in the largest and best equipped refrigerator that has been shipped to this part of the country in years.

Everything about the new market will be kept fresh and clean, and courteous treatment and prompt delivery is assured by J. H. Divel, who will manage the new store. The South Side Market will make a strong bid for the trade of the people, especially those on the South Side, after the time of opening Saturday.

MURDERER HANGED.

End of Remarkable Struggle to Escape the Gallows.

Newark, N. J., Mar. 22.—Giuseppe Marmo, of Italy, was hanged here today for the murder of his brother-in-law. The murder followed a quarrel between the two men. The struggle which Marmo made to save himself from the gallows during the past two years was a most remarkable one. Not only did he exhaust all the methods known to the law, but on at least two occasions he made sensational attempts to escape from confinement. One of these was made in the court room after he had been sentenced to death for the third time. He suddenly drew an iron bar from the leg of his trousers and made a break for freedom. He was overpowered after one of the court officers had been severely injured.

OPERATOR LOCATED.

Man Whose Nap Caused Railroad Accident in Colorado.

Denver, Colo., Mar. 22.—S. Frank Lively, the Swallows operator whose unfortunate nap caused the collision at Adobe last Friday, is at his home in Mumfordsville, Ky., according to a dispatch received today. He says that he went home to rest, and that he will return to Colorado if wanted. It is becoming more certain that the death list in the accident was between 40 and 50. The list unaccounted for at the Rio Grande headquarters show 48 missing. Undoubtedly some of those unaccounted for are alive, but it is also believed that many of them are dead.

Miners Strike in France.

Lens, France, Mar. 22.—Reports from the various mining centers all show that the strike is now general. Some disorders have occurred and a number of coal wagons have been smashed. Twelve hundred additional troops have arrived here, and the whole district is now occupied by military forces.

Among the important articles the Record was forced to leave out of today's issue, was a communication from Judge Bateman, that should interest every honest Democrat in Chaves county. He offers a solution of the much discussed question of clean and fair primaries.

According to a new ruling of the General Land Office, all non-mineral affidavits filed by parties making claim on land, must show that the land is not occupied or improved by an Indian. This rule is now in force in the local land office.

WANTED: R. R. TICKETS. Bring me your R. R. tickets for quick sale at best prices. (At) INGERSOLL'S BOOK STORE.

U. S. WEATHER BUREAU.

(Local Report.) (Observation taken at 6 a. m.) Roswell, N. M., Mar. 22.—Temperature.—Max., 80; min., 33; mean, 56. Precipitation, .00; wind NW, velocity 2 miles; weather clear. Forecast, Roswell and vicinity: Partly cloudy tonight and Friday warmer.

M. WRIGHT, Official in Charge.

STATEHOOD BILL GOES TO CONFERENCE

"Uncle Joe" Cannon Wins Out in His Contest—Effort to Have House Concur With The Senate Fails.

Washington, D. C., Mar. 22.—The special rule sending the statehood bill to conference was brought into the house by Dazell as the first business of that body today. Dazell demanded the previous question, and on a rising vote 149 voted for it and 124 against it. A roll call was secured on demand of the minority leader, Williams.

The regular roll call resulted in ordering the previous question, the vote being 171 to 140. Dazell was recognized for twenty minutes, and began an explanation of the reason for the special rule.

There were, said Dazell, but three ways to dispose of the bill, one to send it to the regular committee, second to ask unanimous consent for its consideration in the house on a motion to concur, or send it to conference. It was proposed to send the bill to conference, where there could be just criticism and an orderly course pursued. In opposition Mr. Williams pointed out that the vote to adopt a special rule was a vote against concurrence with the senate amendments. "Ordinarily under the rules of the house a motion to concur would be in order. The usual course of procedure this morning ought to be reversed. We ought to have had first the reading and approval of the Journal, then moving of the previous question on this rule, and then an invocation by the chaplain for the mercy of God upon this Republican house." (Applause). "In my opinion they will need it before they get through monkeying with this proposition," he added. He said that if it was the purpose to put up a bluff now and yield to the senate later the procedure was child's play.

A severe castigation of the party organization was made by Humphrey of Washington. Fulkerson of Missouri followed along the same lines. Mr. Babcock predicted that today's action in sending the bill to conference was the last that would be heard of it during the present session. A defense of the method was made by Grosevnor, after which Bede kept the house in convulsions of laughter. He was against the rule. DeArmond, of Missouri, spoke briefly, and Dazell closed the debate.

The Republicans who voted with the Democrats against ordering the previous question were: Adams, Babcock, Bannon, Bede, Beidler, Bonygne, Brown, Calderhead, Cushman, Davidson, Esch, French, Fulkerson, Gillett (Calif.), Golet, Gronlau, Hayes, Herman, Howell, Humphrey (Wash.), Jones (Wash.), Kennedy, Kneeland, McKinley, McCreary, McLachan, McMorran, Marshall, Mondell, Mudd, Murphy, Needham, Tyndall, Smith (Calif.), Wachter, Welbern, Woodyard, Young.

LATER: (Bulletin) By a vote of 175 to 156 the house adopted the special statehood rule, and the speaker appointed Hamilton of Michigan, Brick of Indiana, and Moon of Tennessee, as conferees.

John Sharpe Williams tried to have the statehood conferees instructed to concur in the senate amendment omitting Arizona and New Mexico, but was defeated on a point of order.

The legislative appropriation bill was then taken up.

Bede of Minnesota, made a very humorous speech in the house today on the statehood question. He said that he supported the administration on everything save the statehood and whipping post bills. He praised the President for allowing a member of the house (Longworth) to break in to his private family without sounding an alarm, also that when he gave his daughter away he gave her to a good American, instead of to a degenerate foreign prince.

Back to the Senate.

Washington, Mar. 22.—When the report of action on the statehood bill was received from the house, Senator Beveridge, chairman of the Committee on Territories, moved that the senate insist upon its amendments, and agree to the request for a conference. Senator Foraker moved to amend the motion to provide that the senate, instead of the vice president, appoint the conferees. The adoption of Foraker's motion would allow the opponents of joint statehood to name the conferees. Upon Foraker's suggestion, the whole matter went over until tomorrow.

Land Opening Delayed.

Washington, Mar. 22.—When the senate met today a joint resolution extending from June 15 to August 15, 1906, the time for opening to entry the ceded portion of the Shoshone and Wind River reservation in Wyoming was passed.

The railroad rate bill was then taken up, and Senator Lodge addressed the senate in support of his amendment providing for displacement of the present Interstate Commerce Commission by one composed of a larger number of commissioners and with longer terms of office and better pay.

Trust Decision Discussed.

Washington, Mar. 22.—President Roosevelt held an extended conference today with Attorney General Moody, Secretary Taft and James R. Garfield concerning the adverse decision rendered in Chicago yesterday by Judge Humphreys in the beef packers case. The decision relieves the individual officials of the packers' corporations from prosecution. An effort to appeal will probably be made, but in any event there is a bill in congress to provide a remedy in such cases. It provides that in all criminal prosecutions the United States shall have the same right of appeal that is given the defendant.

AFTER THE MUTUAL.

Every Member of Old Board of Trustees Served With Requisition.

New York, Mar. 22.—It was announced today that within the past few days every member of the old board of trustees of the Mutual Life Insurance Company, including all who served between the dates Jan. 1, 1900, and Dec. 1905, have been served with requisitions for information as drastic as the Mutual's harshest critics could demand. Joseph H. Choate is the author of the requisition, and it is said to be issued with

the unqualified approval of the Truesdale committee and the Mutual's legislative administration.

TWENTY-ONE EARTHQUAKES.

Valley Formed in Center of Island and Houses Demolished.

New York, Mar. 22.—A cable to the Herald from Palermo says: "There have been twenty-one earthquakes on the island of Ustica during the past three days, and the population is terrorized. A great valley has been formed in the center of the island and all the houses demolished. The island is used as a penal settlement for hardened criminals. These made an effort to escape, but were subdued by the guards. One of the three mountains on the island is reported to be in eruption."

First Settler of Eden Valley Dead.

O. V. Connell died last night at his home in Eden Valley 20 miles north of Roswell. His son came to town this morning for a casket. Deceased was 48 years of age. He was the first settler in Eden Valley, having located there twelve years ago. He had been engaged in the sheep business. Burial will be made in Eden Valley.

Excursion Came Late.

The regular afternoon train which came practically on time yesterday, was followed by a second section bringing excursionists from the north. The latter train arrived at midnight. On this train Davison & Walker brought 72 land buyers. The Southwestern Land Company brought about thirty; the P. V. Immigration Co., 40, and the Artesia Land and Immigration Co., 40. There were also many prospectors under the direction of no company. The whole crowd went south today on a special.

Irrigators Must Be Careful.

Quite a number of farmers in the vicinity have been careless lately and allowed their irrigating water to run in the roads. In this way several bad places have been made and some of them are almost impassable for team and buggy. The officials have taken up the matter, and give notice that cases of carelessness in this line will be prosecuted in the future, according to the law.

D. C. Griffith has applied for a license to practice law. His petition has been filed in district court.

A transcript has been filed in district court in the case of Lee R. Hart against J. M. Dixon, being brought from the justice court of J. M. Poage.

Mrs. C. M. Bird went to Carlsbad last night. She will return with her husband Saturday morning.

Bert Ingersoll has been located. He has written a letter from Carlsbad stating that he finally reached that town in safety.

I am going to dispose of a fine line of hat pins and waist sets at reduced prices, Saturday and Monday.—L. B. Boellner, Jeweler and optician.

BLOCKED BY SNOW

TRACTION TRAFFIC ABANDONED ON ACCOUNT OF DRIFTS.

COLLISION AT SEA

German Steamer Badly Damaged and Small Schooner Disabled.—Russian Instructions Complicate Matters at Algeiras and Ball Up the Convention on Police Matters.

Wooster, O., Mar. 22.—All traffic on the Cleveland and Southwestern traction line between this city and Boca, 40 miles, has been abandoned, because of snow drifts in the cuts. Three cars with fifty passengers have been stuck by a terrible drift five miles north of the city since five o'clock last night. Many men are shoveling snow, but a steady wind is blowing the snow back almost as fast as the men get it out.

A Collision at Sea.

Cape Henry, Mar. 22.—The German steamer San Miguel, bound from Baltimore to Port Maria, and the schooner Ralph M. Hayward, from New York, collided 12 miles off here last night. The schooner, leaking badly, is now beached at Lynn Haven Inlet. The San Miguel proceeded to Baltimore today. Her main mast was carried away, the deck trimmings and stack dismantled and a hole stove in the side near the water line.

The Algeiras Convention.

Berlin, Mar. 22.—Russia's instructions to Count Cassini, her chief delegate to the Moroccan conference, have affected the German government unfavorably, and came almost as a challenge at the moment when the settlement of questions in dispute at Algeiras seemed certain. It is not improbable that the attitude of both the French and German delegates will be influenced thereby. Dispatches from Algeiras today indicate an unyielding disposition on either side of the question whether French and Spanish inspectors of police shall cooperate in each harbor or consist of four exclusively French and four exclusively Spanish inspectors.

Noah Hamilton was out to Walnut Draw yesterday, and reports that the sheep are in fine condition.

ULLERY FURNITURE COMPANY
ROSWELL. ARTESIA. CARLSBAD.

Undertakers

Carry everything in the line of funeral merchandise. Employ several of the best embalmers. Calls made anywhere at any time. Local and Long Distance Telephones.
